

Annual Scoria Cleanup

ANNUAL SCORIA CLEANUP

Weather permitting, during the month of April, the City's Street Division will be sweeping up **scoria** that remains on the roadways. Residents are asked to help with this collection by raking out any additional scoria from their property, including the R.O.W. and culverts onto the asphalt shoulder of the roads. Any commercial contractors or property management companies who provide this service **must** remove the materials themselves.

This scoria cleanup is part of the City's Particulate Matter-10 Air Quality maintenance plan, and residents are asked to cooperate by not using this cleanup for other debris. Branches that have been trimmed or trees that have been cut down, as well as other refuse must be disposed of by the resident or a contractor.

A call to the Public Works Shop at 879-1807 will help to schedule additional pickups, if needed during the annual scoria cleanup. Questions about this service should be directed to Street Superintendent – David Van Winkle or Street Supervisor – Tom Martindale at the Public Works Shop.
